University of Waikato Kingitanga Day Programme

Thursday 18 September 2014

The University of Waikato and Kingitanga

Kingitanga Day celebrates the University’s distinctive identity, heritage and relationships.

Since its founding in 1964, the University of Waikato has had strong connections with the Kingitanga, Waikato-Tainui and many other iwi across the country. This is particularly evident through our efforts with Te Rōpū Manukura, the high-level committee of iwi representatives that forms part of the University’s governance and which ensures we work with iwi to meet the tertiary needs and aspirations of Māori communities.

Through Kingitanga Day, these relationships are honoured. Every year the calibre of speakers is a testament to the growing importance and recognition of Kingitanga Day, both locally and nationally. The interest around this event grows each year, and it serves as a platform for building relationships with key individuals in the Māori sphere.

Kingitanga Day is an opportunity for wider community engagement, and as a University that celebrates Māori distinctiveness, we hope to share our cultural uniqueness with the public.
